1935 - 1936.

In presenting the report for the year ending March 31st 1936. I am pleased to record a fairly satisfactory state of affairs.

During the year. the nurse has paid 2377. visits

The number of cases attended was:

General nursing	81 -	193 visits
midwifery	16.	234. visits
Ante. natal		185 "
Health.		655 "
Casual		502 "

Compared with the previous year. these figures show. an increase of 12 cases. and. 323 visits. The. midwifery cases. this year. were 16, against 8 last year.

In other. respects the year has. been uneventful, no. special effort being made. to raise funds.

Mr. & Mrs Hallam have again shown their annual interest in making collections amongst. their friends to the amount of £12. 13. 9. for which we are most grateful.

The grants from the County Council have been cut by. £5. & the loss. on the years working is. £27. 10. 10, which considerably reduces the balance in hand.

I should like to thank the. President. Mrs Pemberthy. the. chairman Mrs Jacques.

THE Librarians. The collections. All the committee. for their help. All their work for the. association.

Gertrude Jacques
June 30° 1986.
